

## Digital Video Intern

Project Title	Digital Video Intern
Project Summary	Catchy! Bright! Informative! The U.S. Embassy in Bulgaria wants videos that attract viewers and appeal to a large audience. We're looking for talented and promising digital interns to create infographic-style videos for the State Department to use in Bulgaria.
Country	Bulgaria

## Project Description

The U.S. Embassy in Bulgaria is looking for digital interns to create custom videos on a range of topics. The scripts will be delivered to the interns, who then use his or her creativity to develop professional animated videos that will appeal to a wide viewership. Interested applicants should have video-making experience and be able to share examples of their work. As videos will be animated, students should have an art background, digital or otherwise. The chosen applicants will work directly with State Department staff in Bulgaria to create custom animated videos for the Bulgarian audience, and should be available to answer questions and incorporate feedback into each project. We are seeking two interns, who will work on separate projects under the same supervisor. This is a great chance to create professional videos that will reach thousands of people.
